

## Project Date & Location

February 2021

The White House, Hertfordshire

## Specification

- ◆ 100 linear metres of aluminum box gutters with square downpipes in Black RAL 9005m
- ◆ A box profile with concealed brackets, offering a sleek and unobtrusive solution for a contemporary building design.
- ◆ Longlife with minimum maintenance

## Solution

Marley Alutec Snapfit Aligator aluminium box gutters, 120x80mm profile, with 72mm square Flushfit downpipes and a life expectancy of 50 years plus.

## Description

The clients brief was a gutter system which suited the building design and was large enough to handle the significant amount of rainwater flowing down the roof.

Alutec Aligator aluminium box gutter system has to be the perfect match. Its snap fit boltless jointing system can also help to reduce the installation time by as much as 40% compared to traditional bolted systems.

## Contractor

GHR Construction Ltd

Supplied by the team at Gutter Centre on a 10-working day lead-time
